Instructions

This is a cut and stick chore chart to get your child helping out around the house. There are various pictures to go with each category (Task, Item, Area). Cut these out and place on the chart to make a task.

This is great as a sorting activity for your child too. Tell them the task you would like them to do, then get them to arrange the tiles into the correct categories on the chart. Included are blank panels so you can write your own specific activities. **You can see an example below:**
